SANDS' SARSAPARILLA.

FOR THE REMOVAL AND PERMANENT CURE OF ALL DISEASES ARISING FROM AN IMPURE STATE OF THE BLOOD, OR HABIT OF THE SYSTEM.

Scrofula, or King's Evil, rheumatism, obstinate cutaneous eruptions, pimples, or pustules on the face, blotches, biles, chronic sore eyes, ring worm or tetter, scald head, enlargement and pain of the bones and joints, stubborn ulcers, syphilitic symptoms, sciatica, or lumbago, and diseases arising from an injudicious use of the mercury, ascites, or dropsy, exposure or imprudence in life. Also, chronic constitutional disorders will be removed by this preparation.

The proprietors submit to the public the following certificate, from a highly respectable source, of a cure made by using their preparation of Sarsaparilla, which cannot but have the effect of placing beyond all doubt the curative powers of the medicine.

New York, August 3, 1842.

"Messrs. Sands—Gentlemen: Under a feeling sense of gratitude inherent to us all when suddenly relieved from suffering and disease, I now, as an act of justice due to you, and with a view of relieving the afflicted, make known to the world the inestimable benefit I have received from the use of your Sarsaparilla. In the year 1832 I sailed from England in a vessel bound for Quebec, and while on the passage first discovered the disease which after proved to be a sore affliction; and truly I can say, from the crown of my head to the sole of my foot there was no soundness in me." From the time first mentioned down until the present, a period of more than ten years, I have suffered all that human nature was capable of bearing. I have been under the care of the most distinguished physicians both in this country and in England, visited Bath, Cheltenham, Bristol and Gloucester, tried various specifics, among others a large quantity of Swain's Panacea, used sulphur baths, &c. As a last resort I was induced to wrap myself in a tar oilment, keep myself secluded, shunned by all, myself also shunning. I was induced to believe my case a hopeless one.

In August last, by the advice of friends, I went to the New York City Hospital, but was there told that my case was incurable. The disease now enveloped my whole body, rendering me almost helpless; the skin thickened and cracked, and blood and matter ran, and life itself became almost a burden. A few weeks since I was induced to use your Sarsaparilla by hearing it so highly recommended, having spent nearly \$3,000 without obtaining but little relief. After using it a short time, I found myself better, and now, by using six or eight bottles, costing me less than ten dollars, I am well. Yes, I certify and declare to the world, that after spending near \$3,000 in travelling and doctoring, and suffering more than can be told, I was perfectly cured by using your invaluable preparation of Sarsaparilla; and I now recommend it to all similarly afflicted. Those wishing to know further particulars will find me at my residence, No. 27 Warren street, New York, where I shall be happy to communicate any thing in relation to the above cure.

PAUL BURDOCK."

Prepared and sold by A. B. SANDS & Co. Druggists and Chemists, Granite Buildings, 273 Broadway, corner of Chambers street, New York. And for sale by Druggists throughout the United States. Price \$1 per bottle, six bottles for \$5.

The public are respectfully requested to remember that it is Sands's Sarsaparilla that has and is constantly achieving such remarkable cures of the most difficult cases of diseases, to which the human frame is subject, and ask for Sands's Sarsaparilla, and take no other.

G. W. LADD, Agent for this vicinity, and dealers will be supplied very low by the dozen.

DOCT. E. PRATT'S IMPROVED ARTIFICIAL NIPPLE.

THE Medical Faculty it is prevented for demonstration as a desideratum, when properly applied, in the following cases, viz.—where the nipple is inverted; where there is excoriation in its irritable form; or, even where it has completely sloughed. Perhaps the most extraordinary circumstance pertaining to its operation is, that it operates with perfect ease to the Mother, and perfect facility to the Child. It will be seen at a glance that this article is far superior to any other article of the kind which has yet been offered to the public.

They may be found at A. P. GUILD'S, may 20 Druggist, Exchange-st.

PATENT MILL WHEELS.

THE Subscriber having for a long time given his attention to the construction and operation of Water Wheels, has finally succeeded in the invention of two kinds of Wheels for which he has received Letters Patent from the Government of the United States.

These Wheels are simple in their construction, cheap and durable, are easily put in operation, and are not liable like most other wheels to get out of order; they are not obstructed by back water, when the head is not diminished thereby; and the same power and speed is obtained, with about one half the quantity of water usually applied to wheels now in general use.

A great number of these Wheels are now in operation and give in all cases entire satisfaction; and for further information respecting them the following gentlemen are referred to, all of whom have some of said wheels in operation: Jacob Drummond, James B. Fiske, Amos Davis and Leonard March, Esqrs, Messrs. Fiske & Norcross, Foster & Gilman, S. P. & H. Strickland, W. T. & H. Peirce & Co. Bangor; Hon J. S. Little, Portland; Hon. John Otis, Hallowell; F. A. Butman, Esquire, Dixmont; Robert Treat, Geo. A. Peirce, Esquires, Frankfort; Daniel Dennett, Esq. Milo; Col. Henry Orne, Milton; Messrs. Fiske & Bridge, Millford; Ira Wadleigh, Esq. Orltown; Capt. R. Fitz, Dedham; John Black and John M. Hale, Esqrs Ellsworth; Messrs. A. Campbell & Co. Cherryfield; Daniel Harwood, Esq. Acadia; Levi L. Lowell, Calais.

The above wheels are manufactured and for sale at the Iron Foundries of MESSRS. HINCKLEY & EGERY and FRANKLIN MUZZY & Co. in this city, who are furnished with a great variety of patterns, so that Wheels of any particular description, or adapted to any given head of water, can be furnished at short notice. They are also authorized to dispose of the Patent Right for the same.

LOOKING GLASS & PICTURE FRAME MANUFACTORY.

FAIRBANKS & HOLLAND, PEARSON'S MILLS, BANGOR.

THE public are informed that we have established a manufactory for making LOOKING GLASS, PORTRAIT AND PICTURE FRAMES of all sizes and varieties. We have set up suitable machinery in all the branches of the business by which much labor is saved and the price of these rich and beautiful articles is greatly reduced, so that a fine article may now take the place of coarse and ill looking ones, and at as low a price.

Large and elegant O G and bevel frames, and small bevel frames with rich mahogany veneer are manufactured in such quantities that we are prepared to answer, at short notice, all orders at

WHOLESALE,

by the hundred or thousand, at prices that cannot but be satisfactory to dealers.

NEW frames fitted to Portraits, Looking Glasses or Pictures, or new glasses furnished and fitted to old frames.

* Dealers supplied with frames either with or without glasses.

N. B. Orders respectfully solicited for single frames or by the dozen; and as this is a new branch of Home Manufacture to any extent, we trust the public will be ready to encourage and support the enterprise.

For the convenience of our city friends, orders for frames of any kind may be left at the Hardware store of DAVID MOSMAN on East Market Place.

WHIG CAUCUS.

THE Whigs of Bangor, one and all, are invited to attend a general caucus at the City Hall, on WEDNESDAY evening the 9th inst. at half past seven o'clock, for the purpose of selecting two candidates, for Representatives to the State Legislature, and for the transaction of such other business as may be deemed expedient and proper.

Per order of the City Committee.

Bangor, Sept. 4, 1843.

SEE FIRST PAGE.

Elisha H. Allen.

The whigs of Penobscot and Piscataquis Congressional District have put in nomination their well tried and worthy representative in Congress, Elisha H. Allen for re-election. While in Congress he has occupied a high station and has devoted his best energies to the interest of his district and to the promotion of whig measures. He has united with the venerable Adams in behalf of Northern interests and in favor of the right of petition. He has aroused the General Government to active measures for fortifying the Penobscot river that has so long been shamefully neglected. He has eloquently urged the adoption of the Tariff and the advantages of protecting home labor. He has been careful of his country's honor, and in all things faithfully discharged his duty as a representative of this district in the National councils. His merits have caused him to be unanimously selected the candidate of the whigs of this district, and eminently entitle him to a generous and hearty support at the polls on Monday next. A FULL WHIG VOTE IN THIS DISTRICT WILL SECURE HIS ELECTION. Devote the few remaining days to the cause and the victory is sure, and this district will be represented by a man who will faithfully discharge his duties with credit to himself and honor to the State.

Cattle Show.

We publish to day an address of the Trustees of the Penobscot Agricultural Society relative to the annual Fair, which is to be held in this city on the 27th and 28th days of this month. We trust a generous support will be given to this exhibition by our citizens in the way of contributing towards providing suitable accommodations, and by attending the Fair and making purchases and by offering articles for exhibition. The manufacturers and mechanics in our city should be making preparation for having their respective trades represented by worthy productions of their skill.

The field and the garden, the barn and the house, and shop and factory should all furnish something that we may have collected, in one place and open to one view, a picture of the productive and mechanical skill of Penobscot county.

The doctrine of anti-protection is anti-patriotic. It would sustain foreigners at the expense of our own working men. It would crush the American Mechanic, while it would feed and cloth the foreign Mechanic and enrich foreign capitalists. It would take from our country the ability to provide for itself in peace and war, and make her dependent upon foreign countries.

The New York Plebeian begins to be a little alarmed at the prospect presented by the enthusiastic acceptance of office from John Tyler, by leading men of its party, since it plainly sees that the general understanding is, on the part of the giver, and of course the receivers, that they are to withdraw from Mr. Van Buren.

A Gratifying Fact.

It is stated that three of the members elect to Congress from Tennessee, are mechanics. Andrew Johnson is a tailor; J. W. Blackwell is a cooper; and G. W. Jones is a saddler. They are said to be all, of fine talents, and rose to their present eminent station by persevering industry and their own good character, without the aid of influential friends.

It is certainly gratifying to find so many examples in our country of successful study in connection with the active labor of life. These examples of the union of mental and physical labor teach important lessons to every laboring man in the country. The benefits resulting from study and toil, are personal, and may be enjoyed by the mechanic, even though he may never be called upon, or feel disposed, to accept public office. We would not urge upon any man the cultivation of his intellect and his heart that he may successfully seek for public office, but because he is a man. We would urge all to qualify themselves for all the duties of life as men, that they may develop all their faculties and make others like themselves. Then, if duty calls them into public life, they can enter upon it with honor to themselves and benefit to their country.

The Whigs of Maine have in nomination for Congress, two mechanics, whose abilities are equal to any men in the State and who will ardently labor for the promotion of the public good. We trust they will be elected and aid in giving a strong, practical character to our national Legislature.

The recent corrupt management of the traitor Tyler while it sets a premonitory example of the bestowal of offices for the return of personal efforts in his behalf—while it shows how a political profligate may trifle with the power of the government and abuse the confidence of the people—it at the same time furnishes the strongest grounds for keeping alive the Whig doctrine of limiting and modifying executive power and of inflexibly insisting upon the one term principle. It is worthy of remark that while Tyler is profligately opening political corruption on every hand he is more and more called a "democrat" and approved by the leaders of the self elected party of that name, while at the same time he becomes more and more the subject of scorn and abhorrence on the part of the Whigs! His name now serves to be a word and a hissing as it even now yet to be.

A herd of Buffaloes, exhibited at Hoboken on Thursday last, for a chase, escaped through a gap made in the enclosure by the spectators. The Buffaloes dispersed in all directions, among the plains and forests of New Jersey.

The Gazette, of this city, gave some objections to Hon. Hannibal Hamlin, the loco candidate for Congress from this district, because, when in the Legislature, he voted against certain resolutions relative to slavery. The Gazette conceals the fact that Hon. Elisha H. Allen, the whig candidate voted for those resolutions and in one stage of their progress they were passed by his casting vote.

Saw Manufactory.

Mr. Michael Schwartz recently from Boston has opened a factory in this city for the manufacture of saws of every variety. He has several men now employed and the number will be increased as his works progress towards greater completion.

Saws of various kinds are extensively used in this vicinity and the introduction of their manufacture here we consider of much importance especially as those made by Mr. Schwartz are all warranted and said to be of excellent quality. This branch of business is certainly a necessary one in our city as it is better for our citizens to have the profits on the labor of making saws remain in our city rather than be sent abroad. It is the best way in all these manufactures to encourage home labor.

The Gazette of yesterday, thus speaks in reference to the promising artist now in this city: "Mr. W. L. Torrey has shown us a miniature painted by himself of our neighbor of the Whig, J. S. Bayward, Esq. which is an excellent likeness, and, if a fair specimen of all his miniatures, proves him to be a skilful artist. If any of our citizens are desirous of obtaining miniatures of themselves or of members of their families, on reasonable terms, they will do well to patronize Mr. Torrey."

William E. P. Rogers Esq. formerly proprietor of the Whig in this city is now editor of the Haverhill Gazette, Mass. and is carrying on the political battle in good style. He shows up Capt. Tyler in fine order and goes for the Whig cause with his whole soul. Rogers is an industrious printer and an able editor. A self made man, and we rejoice, as all his friends here do in his success.

The New York Aurora, the Tyler organ of New York, is so confident in the arrangements that have been made, that it tells the friends of Mr. Van Buren that all their talk is the mere gabble of geese! The corrupt bargaining in the bestowal and acceptance of office, on the part of political leaders, will cause the honest minded men in the country, who respect true patriotism, to rally in favor of Henry Clay, and leave the mere politicians to wallow in their own filth.

We notice with pleasure that several of the papers in this State have inserted the Prospectus of the committee of the State Convention of Mechanics for publishing a monthly periodical devoted to the interests of Mechanics. We learn that in towns where an effort has been made the plan is received with favor and the prospect is that the work may be commenced about the first of October. It is hoped that the State will be generally canvassed and the first number appear in good style and of good size. When once underway there is no danger of its dying.

The Eastern Argus is speaking of the recent appointment of Mr. Rantoul to the consulate of Boston says:—

"It will be difficult to make people believe that the office was not sought. Such things do not happen."

The sarcasm contained in this as all will at once see is that Mr. Rantoul and his loco friends have been courting the traitor Tyler and thus obtained the appointment. Very likely. And the remark, unquestionably may be extended to embrace the recent appointments in this State.

It is no doubt understood by Tyler that the acceptance of office of his appointment by prominent loco is a sign and a pledge that his is a loco loco administration and is acknowledged as such. This is reasonable. He acts like a loco loco. And we protest against his being considered a Whig, or the Whig party being held responsible for the effects of his administration. The locos are now responsible for all he can do or leave undone, or does.

The Washington correspondent of the New York Aurora says that Mr. Webster left the cabinet because he could not bring to the administration sufficient loco loco aid, and then goes on to beg of the locos to come up to the scratch and they shall have whatever they ask!

A writer in the Richmond Enquirer, who says that he supported Mr. Van Buren in 1840, gives it as his opinion that if he is nominated again by the National Convention, that another "defeat more appalling than the one in 1840, will be the consequence." This admission, coming from a Van Buren man, we give as a sign of the times.

The Bishop of Rhode Island has consented to accept the provisional supervision of the church in Maine, as requested by a unanimous vote of the late annual Convention of that diocese.

John Quincy Adams says of John Tyler that he is "an insincere, two faced man: he cannot be depended on. His appointment of Democrats to office is for political effect. He has sacrificed himself to the democratic party, and this will be urged as his claim to the nomination to the Presidential chair, at the great National Convention of that party."

Penobscot Agricultural Society's Show and Fair, at Bangor, 27th and 28th days of September, 1843.
Men and Women of Penobscot:

A thousand blessings on you and yours.—We doubt not that you deserve them, and if you do, you will manifest it by encouraging, to the utmost of your ability, the laudable efforts of this Society. To this end, you, Men of the County, will each and all forthwith become members, pay the meagre fee, and ever afterwards, every year, so long as you have the means, the little yearly assessment of one dollar, into its Treasury whenever the collector may call upon you. And, then, and moreover, you will not fail to attend its annual meetings for business and its autumnal Exhibition, take a deep, constant and increasing interest in whatever may conduce to the prosperity of those great, main, fundamental and indispensable departments of human industry and labor, those mighty and never failing sources of health, purity and happiness—Agriculture and the Mechanic Arts.

And you, especially, Women of this county, we solicit your aid and assistance in this noble work. You may not be nominally members—but you may, and we trust you will be most effective fellow laborers with us. And to this end, that they may worthily perform the duties required of them, you will persuade and stimulate, by all the irresistible influences you can exert, your husbands, and all those who exhibit any premonitory symptoms of ever being husbands—all but the stiff, rigid, irremediable, hopeless old Bachelor, shame on the name!—let him sleep all alone—not just now, for we wish to have this word of kindly greeting appear in all the papers hereabouts. However, on the score of pity, we would consent that you try even these, on the sole condition though, that they marry, right off some fair damsel and true, and be to her, through life, all that man can be to woman, faithful, loyal and loving.

We invite you, we solicit you, not as though we entertained a lurking fear that you would not, but simply to express our anxiety that you should, to cheer and strengthen us by your presence at our approaching festival, by your smiles, and approbation wherein we deserve them, your counsel and advice wherein we may need them, and your example in all things—viewing with and excelling the man in the offerings you may bring—the wholesome and nutritious produce of the dairy, the useful, necessary and ornamental creations of the spindle, loom and needle, which your hands, with most laudable diligence and skill, have made, and in making which have gained blessings for yourselves and others.

Men and Women of Penobscot: Let it never be said that the society failed and went down, because we had not pluck enough to sustain it. In that event, the sooner there shall be written on our door posts "Gone to Texas," the better for the County.

JOHN OAKMAN,
JOHN CUTLER,
A. SANBORN, Trustees.

Sept. 2, 1843.

The New York correspondent of the Intelligencer says—
"I understand that Mr. Horsey Palmer, the late Governor of the Bank of England, who was in this country some months since, has bought a house in New York with the intention of taking up his permanent residence here. This gives great pleasure to all who had the pleasure of an acquaintance with that merchant prince."

Several prisoners escaped from the Montreal jail, last week, and shortly after broke into a store, stole a quantity of ale, on which they got so drunk and noisy, that they were taken without difficulty. A Montreal paper calls this "prisoners arrested by bottles."

The Portland American states that, on Wednesday, as Mr. Jordon, of Cape Elizabeth, was passing over the Portland Bridge, with a four ox team, the flooring of the bridge suddenly gave way, and himself and team fell through to the depth of eighteen feet. Mr. Jordon escaped with a slight injury but the oxen were severely cut and bruised, horns broken off, &c.

Whig Legislature.

The Whig majority on this ballot will be 38, twice as large as last year. This notwithstanding the apparently adverse indications in the elections to Congress. And to show further proof of our remark the other day that the Locos in some of Western States had gained only names by their alleged triumph, it appears that the Whigs are said to have lost one State Senator at the late election, but the successful "democrat" is however in favor of a United States Bank, and pledged to vote in case of a vacancy, for a Whig Senator to Congress.

With such results, we can afford to wait another year. [Port. Adv.]

The Portland Bulletin, a neutral paper, gives the following picture of John Tyler.

Our first convictions of Mr. Tyler's dishonesty—we do not say that we had no suspicions of him before—look place upon the appointment of Mr. Lowrey to an inspectorship in the Custom House in this city. Most people are aware of the circumstances attendant on this appointment. Mr. Lowrey was the President's name emblematized in its centre in glowing capitals, took it on to Washington and there presented it to Mr. Tyler. His Excellency, it is almost needless to say, received it very graciously. Soon after, as we have the best reasons for believing, the inquiry was sent to the Collector of the Customs here whether there was no vacancy in the Custom House which Mr. L might fill. The honest and fearless reply was that all the departments were filled. The question was then asked, could not a new inspectorship be created with benefit to the interests of the country. The times were dull, and there were already double the number of officers absolutely necessary to transact the business.

Still, in the face of these facts, a new inspectorship was created, to which Mr. Lowrey was appointed, with a salary of \$1095 per annum. This took place in the spring. Mr. L will be retained in office probably, at least till the end of Tyler's administration—say about two years—so that in effect, the President pays him some twenty-two hundred dollars out of the people's money for that carpet! This to us looks like coming the Swartwout with a vengeance. If such examples are set by the head of the government, is it to be wondered at that the minor incumbents of office sometimes become corrupt? Another remarkable feature in this case is that Mr. L. was naturalized only a few weeks before his appointment!

Let the Whigs in all parts of the State put their shoulders to the wheel from now to election. They can elect Edward Robinson, or at least prevent the election of Anderson, and get a majority of members of the House and choose one from the four highest. Mr. Kavanaugh will receive a large number of votes. A word to the wise, &c.

Any thing is better than such a legislature as we had last year. Let no man who acted with the majority of that Legislature be re-elected if there is any honest way to prevent it. Most of all, mark every man who voted for the atrocious and abominable gerrymander.

Prospect of another Mormon War.

The St. Louis New Era, of 16th inst. says—
"We learn by a gentleman from Warsaw, that a meeting of the people of Hancock county to take into consideration their relation with the Mormons. It is said that a good deal of excitement exists against them, and apprehensions of a serious riot and outbreak were entertained. The people of that section of the State are as heartily tired of the Mormons as the citizens of Missouri were, but they have suffered them to obtain so strong a foothold, that no power can exist which can deprive them of their positions, or induce them to abandon their present residence."

All the persons, four in number, who have been apprehended at Worcester on suspicion of being concerned in the robbery of the Milbury Bank, have been discharged—no evidence being found against them. We should like to know what amount of suspicion is sufficient to subject an innocent man to the blasting ordeal of legal examination for robbery.

Votes for State and County officers will be furnished on application to this office at the usual rates.

MESSRS. RAYMOND & CO. having united all the Animals in the United States, will exhibit them in Bangor, Sept. 15th and 16th. The Proprietors having engaged **HERR DRIESSEN**, the unrivalled animal Subduer, with his Leopards, Panthers, Tigers, and majestic Lion, will introduce him in the character of an outcast slave, untaught to the forest, expiring from hunger and thirst, when a fierce Brazilian Tiger darts upon him from an upper cavern, prostrates and seizes him by the throat—a fight ensues, in which he subdues the Tiger, and finally secures him in his den, after which he will harness his noble Lion to an ancient Car, and drive over a road erected across the Pavilion. Concluding with a most bold, grand and daring display of courage ever presented, and having a whole caravan of wild animals let loose upon him at the same time, who will then playfully exhibit his skill in subduing and controlling this untamable exhibition.

The exhibition contains a larger number and greater variety of animals than has heretofore been exhibited together, the whole of which is secured by strong iron cages. This magnificent **MENAGERIE**, preceded by four mammoth **ELEPHANTS**, in harness, attached to the Music Car, will enter the City through Main street, by the Bangor House, and pass through the principal streets to the place of Exhibition, on York Street. FARM FOR SALE.
THE subscriber offers for sale, that tract of land known as the Todd farm in the town of Chester. It is pleasantly situated on the river about four miles above Lincoln village and consists of about 85 acres mostly excellent tillage land, including eight or ten acres of intervals. There is a small house upon it somewhat out of repair and a moderate sized barn. To an experienced and practical Farmer, who would improve it himself, this Farm would be highly valuable, as it will yield with suitable cultivation a large crop of Hay and Grain, which in that situation must always command a market at good prices. It will be sold on reasonable terms on application to me at Bangor.
